Professional Summary

Results-driven Full Stack Developer skilled in React, Node.js, MongoDB, and Tailwind CSS, with expertise in building scalable web applications. Proficient in developing responsive UIs, RESTful APIs, and optimized databases while delivering clean, high-quality code. Adept at translating business needs into technical solutions with a focus on performance, reusability, and best practices.

Professional Experience

Full Stack Developer | Shanture

(July 2024 - Feb 2026)

- Designed and developed dynamic forms, REST APIs, and data mapping for BridgeX, ensuring seamless frontend-backend integration and building responsive dashboards for data visualization.
- Built and deployed a fully responsive website (Santoshi) using React.js, Tailwind CSS, and Bootstrap, delivering optimized UI/UX across devices.
- Contributed to Neurorbis by implementing frontend interfaces and managing backend services with Node.js and MongoDB, enhancing functionality and performance.
- Leveraged React.js, JavaScript, Node.js, MongoDB, Tailwind CSS, Bootstrap, HTML, and CSS to deliver scalable, maintainable, and user-centric solutions.

Key Projects: BridgeX (form integration, API development & dashboards), Santoshi (responsive frontend website), Neurorbis (full-stack development).

Education

- Master of Computer Applications** 2022 - 2024
Chandigarh University
- Bachelor of Science** 2019 - 2022
University of Delhi

Skills

- Languages:** HTML, CSS, JavaScript, SQL, C++
- Frameworks & Libraries:** React.js, Node.js, Express.js, Tailwind CSS, Bootstrap, Ant Design
- Databases:** MongoDB, SQL
- Tools & Platforms:** Git, GitHub, Postman, VS Code
- Core Strengths:** Problem-Solving, Debugging, Collaboration, Effective Communication, Adaptability

Personal Projects

ExploreEase - Travel and Accommodation Platform

- Built a full-stack web application for travel planning, booking, and itinerary management using React.js, Node.js, Express.js, and MongoDB.
- Integrated APIs for payments, location services, and booking systems, ensuring secure and reliable transactions.
- Implemented scalable architecture and responsive UI with Tailwind CSS, enhancing performance and accessibility across devices.

Weather Forecasting Website

- Developed a responsive weather app using React.js, JavaScript, and RESTful APIs, delivering real-time and weekly forecasts with geolocation support.
- Optimized data handling, caching, and error management for smoother performance and faster load times.
- Applied modern UI/UX principles with Tailwind CSS, improving accessibility and user engagement.
